Terasem will evaluate grant applicants on the extent to which (1) the work proposed to be funded furthers a practical immortality that is joyful as opposed to merely technical, (2) the work to be funded implements such immortality via geoethical nanotechnology and/or personal cyberconsciousness, (3) the work to be funded specifically contemplates the promotion of cognitive and substrate diversity as a core value, and (4) the work to be funded specifically contemplates the promotion of broad-based unity as a core value.
